SUMMARY

Experienced Frontend Developer (2+ years) leveraging React and Next.js to deliver robust, user-centric web applications. Proven ability to implement consistent, efficient UI through modern design practices.

SKILLS

Technical skills React.js, Next.js, Typescript, Javascript, TailwindCSS, Shadcn, Redux, Tanstack Query, REST, SSR, Node.js, Express.js, Vitest, Docker, Git, Postman, Firebase

Soft skills Problem Solving, Communication, Collaboration

EXPERIENCE

Frontend Developer

Feb '23 — Apr '25

TGH Tech

Kochi, Kerala, India

- **Developed a dynamic PowerPoint (PPT) generation feature in React** for client-facing presentations, **automating content assembly from application data** and **ensuring consistent on-brand visual design**.
- **Implemented role-based access control (RBAC)** by developing a **reusable route wrapper component** that restricts user access to specific pages based on their roles, displaying a fallback for unauthorized attempts.
- **Implemented a robust design system** using **Shadcn UI and Tailwind CSS**, **significantly improving development efficiency and ensuring visual consistency** across the application.
- **Developed a dynamic availability booking feature**, enabling users to select multiple time intervals across a weekly schedule, managing complex form state and validation with **React Hook Form** and **Zod**.
